MANAGEMENT DISCUSSIONS AND ANALYSIS (MD&A)

A. Industry structure and developments

Government of India has been considering agriculture and farming under priority sector and Rice Industry is an important constituent in the agricultural sector of Indian Economy. Majority of rural population has been employed in crop cultivation, crop handling and movement of rice and transport industry. It has fast growing brand demand in domestic and Industrial market. Demand for branded rice is slowly spreading to rural sector, rice being the staple food for majority of the Indian population. Further substantial portion of Basmati rice produced in India has huge demand in Industrial market.

Agri warehousing has got momentum and Company is visualizing a vast scope in this field. Keeping the same on focus, De-merger of the warehousing division was considered by the Board under intimation to Stock Exchange.

B. Opportunities and threats

i) Opportunities

Rice Business is coming of age and it is ranked among first few business of India. With policy measures from the Government, the agriculture accounts for substantial percentage of the Country's exports. Indians spend majority of their household expenditure on food items at present. Agriculture sector industry would create substantial employment opportunities in the coming years. Strong urban middle class and changing food habits, promises a huge potential to be tapped. Agriculture has been declared as a priority sector by the Government. The National Policy towards the same has been revised for an integrated approach to facilitate speedy growth. The aim of the policy is to simplify procedures to comply with the need and growth of the sector. Under infrastructure development, Agro-Food Parks are identified in various Indian cities, which in turn will help agriculture. The various states realising the importance of the Food Processing Industry from an employment as well as revenue generation perspectives have been extremely forthcoming in bolstering growth in this industry. Some states that have gone an extra mile by providing various fiscal as well as non-fiscal initiatives include Andhra Pradesh, Punjab, Madhya Pradesh, Uttar Pradesh and Karnataka. Agri warehousing has to play a major role in checking the food prices. Central & State Governments are giving a lot of emphasize and incentives for development of Agri warehouses. Your Company aims to gain benefit of the same.

ii) Threats

The world economy has witnessed an unprecedented economic crisis causing severe recessionary trends in various countries. The synchronized global recession coupled with dramatic changes in the financial landscape is further decelerated the growth. Compared to other economies, India has been somewhat stable as the government has taken some proactive steps to combat the situation. However, favourable demographics and low penetration levels still continue to remain the key levels of the consumption for India. Despite this pall of gloom that bears on us, there are reasons to remain optimistic and confident. India's inherent strengths provide a strong foundation to better withstand the aftermath of the downturn in the global economy. Rice & Wheat are basic necessity of human being and invariably consumed by everyone in different ways. Hence, the Basic Food segment, in which your Company is operating, is less affected due to good production levels, increase in area under cultivation and huge and ready market availability for the products.

C. Segment-wise or product-wise performance.

- (i) The business groups comprise the following:-
- Agro - Agricultural commodities such as Rice, Rajgira etc.
 - Business of handling, storage and transportation
 - Services
 - Rental services.
- (ii) The Geographical segments considered for disclosure are:
- Sales within India
 - Sales outside India

The segment wise financial detail is given in Schedule 21 (D) in notes on accounts under the head Segment Reporting.

D. Outlook

Importance of Agri-warehouses are bound to increase as the Central, State Governments and public at large have realized the role of Agri-warehousing in checking the food prices. The demand for food grains would continue to grow with rise in income levels coupled with change in life style of the people. At the current population growth, rice production has to be enhanced to about 125 million ton by 2020. There is a huge potential for capacity expansion of the existing units in the domestic basmati rice milling industry. The domestic rice industry at present is fragmented and largely occupied by the small and inefficient unorganised units. The domestic industry is at nascent stage and has great potential. However, our company has to compete with exporters of other countries in export of Basmati rice. Your Company is optimistic in increased turnover as it has regular overseas clientele and the carry-over stocks in countries like Saudi Arabia has depleted and we are confident of getting good export orders from them.

E. Risks and Concerns**Climatic risk**

Agriculture in India is largely dependant on monsoon and any adverse changes in climate can lead to shortage of produce.

Risk mitigation

The Company largely procures rice and rajgira from Uttar Pradesh, Uttaranchal, Haryana, Punjab, Gujarat and Rajasthan. The areas under rice cultivation are situated in locations that enjoy abundant rainfall reinforced by adequate irrigation facilities in the respective areas. The Company's exposure to this risk is well within its hedging guidelines. All revenue exposures are hedged to the maximum extent. Depending on the volatility of local currencies, the extent of risk covers could vary.

Foreign exchange risk

As a Company primarily engaged in exports, your Company too is exposed to foreign exchange risk.

Realizations risk

Any decline in the realizations would directly affect the Company's performance.

Cost risk

The Company generally markets aged rice, leading to an accumulation of its inventory and resulting in a higher debt cost. Moreover, increased freight could dent profitability.

F. Internal Control Systems and their adequacy

The Company has in place adequate internal control systems and procedures to commensurate with the size and nature of its business. The internal control systems in the Company are reviewed by the Board of Directors which would provide assurance regarding the effectiveness and efficiency of operation, reliability of financial reporting and compliance with applicable laws and regulations. The transactions are authorized, recorded and reported in conformity with generally accepted accounting practices.

All employees are rigorously exposed and trained to follow the Company's business conduct guidelines with integrity as the foundation of every transaction and activity that is undertaken.

G. Discussions on financial performance with respect to operational performance
