Material impact of CoVID-19 pandemic on operations and performance of the Company

The impact of COVID-19 pandemic on India and globally has been felt by all. The effect on human lives has been unprecedented. At the same time the global economy has also seen a dramatic reversal. The effect due to the lock down and other measures induced by the Government to control the pandemic has had a significant impact on the day to day operations of our Company. Some of the key factors likely to affect the business are listed below:

1. At R T Export's during the first few days of lockdown due to COVID-19, the curfew was imposed and all operations were completely stopped, we experienced constraints in operation of offices, transportation, availability of labour, logistics etc.. Thereafter the Government of India lifted the lockdown and with simultaneous cooperation from local Administration and Government, we managed to overcome the obstacles and were able to streamline the operation of the business.
2. The Company has taken conscious decision to ensure a safe working environment. To ensure this, staff have been asked to report to work from home.
3. The Company have implemented the Standard Operating Procedures, which is strictly being followed across all the Units and Workplaces and we have also designated officials responsible for ensuring the compliances to the Guidelines, Rules and Regulations issued by Central as well as State Government on COVID-19 from time to time.
4. We expect further improvements as Central and State Governments are continuously announcing relaxations and taking steps to improve Trade and Commerce.
5. Although there is a short term impact to the Company's business due to the lockdown, the Company does not foresee any significant impact in the long run in respect of its business.

Kindly take this on record.
